Celebrating

30

*years of
Success*

~6th June 2015~

Foreword by Chairman

The 30th Anniversary is often referred to as the "Pearl Anniversary." And indeed, we have nurtured a gem of a company that has resolutely stayed relevant and successfully evolved with the changing tides of technology.

The past three decades has been an eventful journey for the ECS Group, growing from strength to strength in each passing year. We have supplied to both personal users as well as corporations with the essential tools of technology, thus propelling the entire nation of Malaysia towards achieving its ambitious economic development plans.

As the co-founder of ECS, I am immensely proud of the Company's achievements in the past 30 years. Today, ECS has not only emerged as the leading ICT distribution hub in Malaysia, but has also become the distributor of choice for more than 30 - and counting - globally-renowned ICT principals from all across the globe.

Therefore, at this juncture, I would like to express my utmost gratitude to our esteemed principals, who have entrusted ECS with an increasing range of products time and time again.

A special word of thanks as well to our resellers and business partners, who have made this journey a momentous and successful one.

I would also like to express my appreciation to the Board of Directors, particularly Dato' Teo Chiang Quan who as our co-founder has always been one of our staunchest supporters.

Finally - and the most celebrated of all - I wish to put on record my deepest gratitude to the management and entire team of employees in the ECS family, led by our newly-appointed Chief Executive Officer Mr. Soong Jan Hsung. Thank you for your keen dedication and close collaboration with one another towards reaching the common goal. It is you who have made ECS into what it is today, and you who have the power to shape what it will become in the future. I trust that you would continue to bring ECS to even greater heights.

Indeed, together we can.

Foo Sen Chin
Executive Chairman

From 1985 to 2015

ECS has evolved and transformed from a PC dealer to an ICT Distribution Hub over the past 30 years. From a revenue of RM2 million with a small staff strength of less than 10 personnel in the first year of operation, ECS has grown by leaps and bounds through the years to record-high revenue of RM1.6 billion with nearly 340 personnel in 2014.

The long memorable journey has been challenging amid the rapid changes of technology in the ICT industry as well as rewarding for the stakeholders, namely shareholders, employees, suppliers and customers.

We are pleased to share our milestones in the last three decades in pictures as the following:
